Dice rolls (two standard 6-sided dice "2D6", with say a "1" and a "3"):
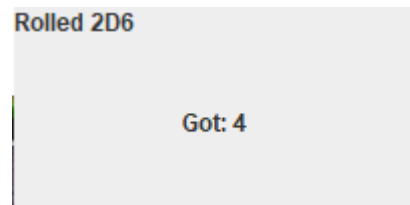

Feel free to swap the "Specialties" and "Features" around, because you always modify specialties before adjusting features (Specialties provide certain Features automatically).

The "File" menu has a drop-down with options "Open", "Save", and "Exit".

The "Screen" menu has a drop-down with options "Character Sheet", "Add Specialties", "Add Features", "Remove Specialty", and "Remove Feature".

Open gives a pop-up:
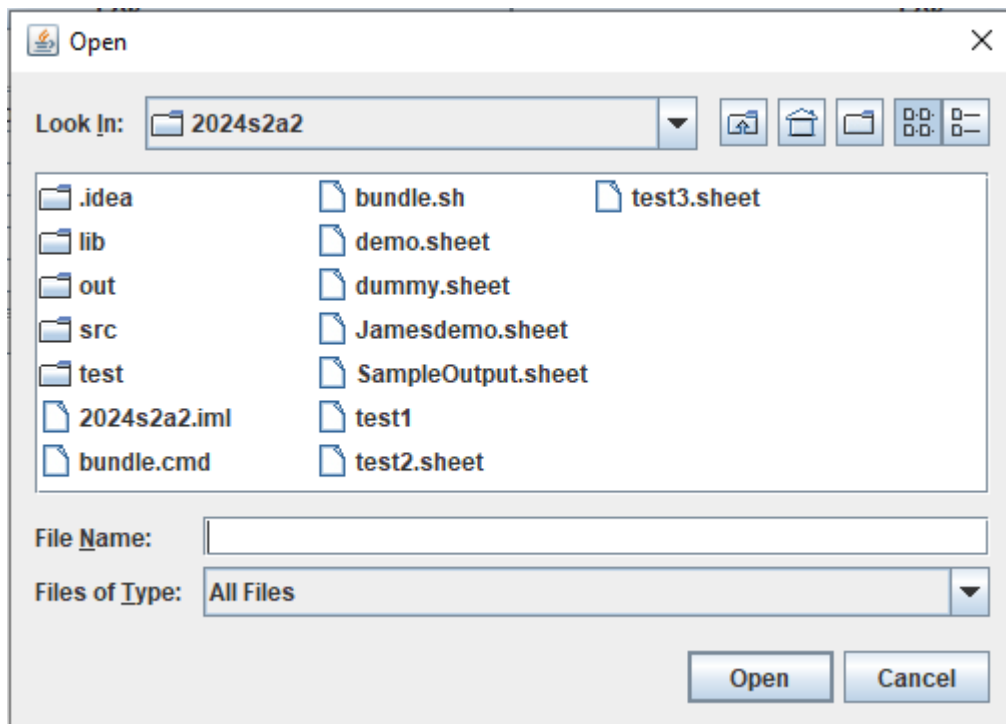

Save:

Exit closes any windows and exits the program.

Character Sheet is the default screen:
